This is a further update to the official release of version 3.1.7 (Full version is 3.1.7.20) (DB Version is 3.44).

Important: The version is compatible with AutoCount Accounting version 1.9.6.19 and above.

What's enhanced in this update:

1. Not allow to set ServiceType and PromoterID at item package master level.
2. Pos posting allow to separate Accrual Basis and Payment Basis during post to GL.
3. Add Tariff Code, Service Tax and Service Charge columns to item package grid view.

What's fixed in this update:

1. Fix bug: Discount amount not allow larger than amount after promotion.
