Highlights of Changes in 5.0.13.124

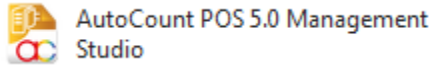

ID: 4547 Enhanced "Join Table" table status wording align to middle

Join Table status wording is now aligned to middle of the table for better visual and also reduce the occurrence of the wording cannot be fully displayed on the table.

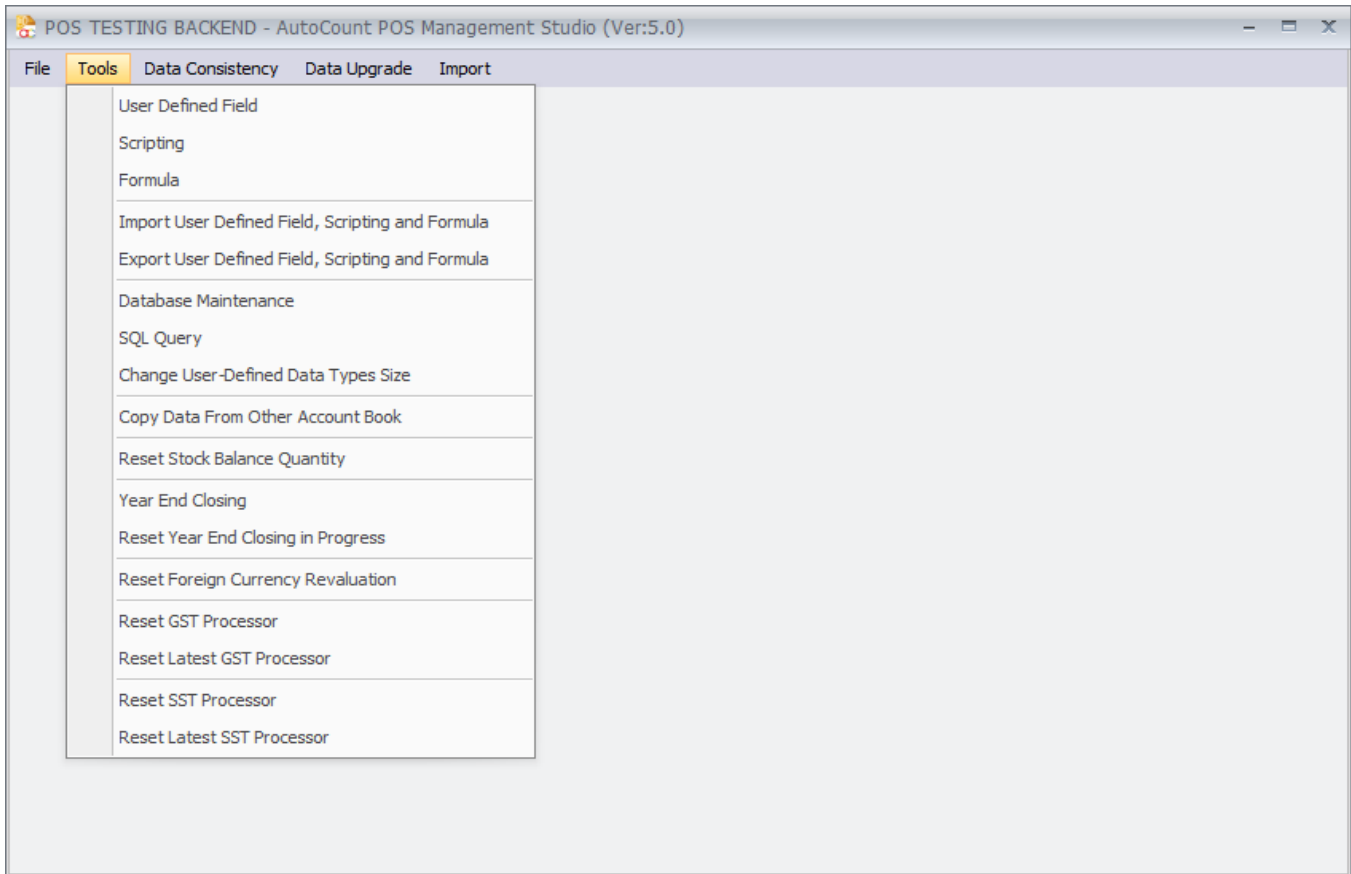

The screenshot displays the autocount POS interface for a restaurant. At the top, there are tabs for 'Floor 1', 'Floor 2', and 'Floor 3'. The main area shows a grid of 16 tables, numbered 01 to 16. Tables 06, 11, 14, and 16 are highlighted in purple and labeled 'Join 06'. Table 06 also shows a timer '(0h 1m)' and a price 'RM7.15'. The right-hand sidebar contains buttons for 'View Order Listing', 'Take Away', 'Reprint Last Receipt', 'Reservation', 'Change Table', 'Mark Served', 'Share Table', 'Join Table', and 'Clear Join Table'. The bottom status bar includes buttons for 'Empty', 'Seated', '>= 5 min', '>= 10 min', 'Served', 'Bill Printed', 'Reserved', 'Share Table', and 'Join Table'. The bottom right corner has a 'Close' button. The bottom left corner shows 'Cashier: ADMIN', 'Terminal: T11B', and 'Outlet: F11B'. The bottom right corner shows the date and time '24/9/2019 2:51:09 PM'.

ID: 4683 Support AutoCount POS 5.0 Management Studio

We had added AutoCount POS 5.0 Management Studio for POS Back-end. You can find it by clicking *Start Menu > key in "AutoCount POS 5.0 Management Studio"*.

This program is similar as AutoCount Accounting 2.0 Management Studio. So it means now you can access it without install Accounting 2.0.

ID: 4650 Enhanced View Price History function. Add in information for return item

View Price History is now able to view the return item price history as well. You can access this function from *More Function > Inquiry > View Price History.*
