Highlights of Changes in 5.0.24.137

ID: 3599 Added FNB Audit Trail report at Back-end and F&B Front-end

FNB Audit Trail report is to keep track activities such as Change Table, Delete Row, Edit Qty, Combine Bill, Share Table and etc done by users in F&B system. Audit Trail Report are now available in Back-end and F&B Front-end.

You can access this function at back-end *POS > Miscellaneous Report > FNB Audit Trail* and F&B front-end at *More Function > Inquiry > Reports > FNB Audit Trail (Under Miscellaneous Report)*

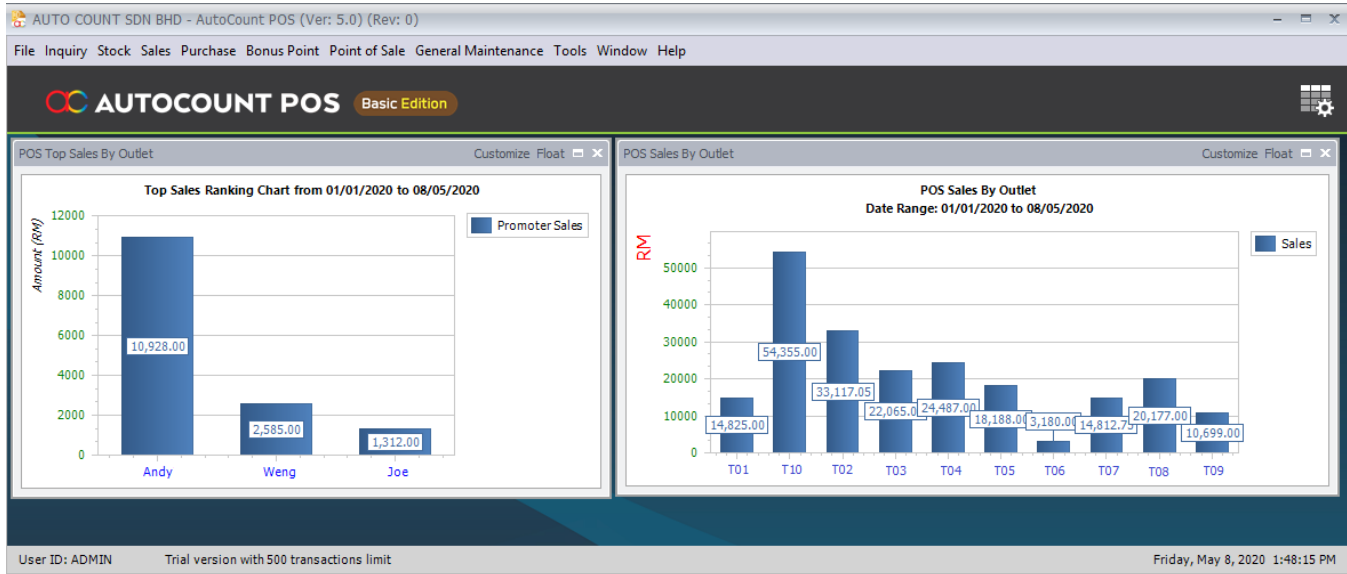

The screenshot displays the 'FNB Audit Trail' window in the AutoCount POS system. The interface includes a search bar, search criteria (Description, Event Message, Computer Name), and filter options (Date Range, User ID, Supervisor ID, and various Event Types). Below the filters is a table of audit trail records.

Event Date Time	User ID	Terminal ID	Supervisor ...	Computer Name	Event Type	Description
06/05/2020 13:11	ALWIN	PJ01		DESKTOP-2IB5LU6	DeleteKitchenPrinterLog	Delete Kitchen Printer Log at terminal PJ...
06/05/2020 13:10	ALWIN	PJ01		DESKTOP-2IB5LU6	ResetOrderSession	Reset Order Session at terminal PJ01
06/05/2020 13:10	ALWIN	PJ01		DESKTOP-2IB5LU6	OutOfStock	Out Of Stock

Event Message:

ID: 3797 Added POS Widget in Back-end

POS Widget is now available at Back-end. You can add this function to Back-end Main screen from *Widget Settings > Add > POS Sales By Outlet / POS Top Sales By Outlet.*

ID: 6330 Support Set F.o.C function in F&B

Set F.O.C function is now available at F&B. In front-end, when you *select on specific item > Row Discount > Set F.O.C (100%)* system will treat it as 100% discount. *After Set F.O.C (100%) and user changed their mind not to give as F.O.C, then user can select on specific item > Row Discount > Un-Set F.O.C.*

****Note:** In order to use this function, users are required to have "Set F.O.C" access right.

The 'Item Discount' dialog box shows a 'Percentage' field with a dropdown menu set to 'Set F.O.C (100%)'. Below the fields are buttons for '10', '20', '30', '40', '50', '90', 'StaffMeal', 'BOSS', 'PBB', and 'UOB'. A numeric keypad is also present with 'Backspace', 'Cancel', and 'OK' buttons. At the bottom, there are function keys: 'F1 - Display Item Cost' and 'F2 - Display Minimum Selling Price'.

The 'Item Discount' dialog box shows a 'Percentage' field with a dropdown menu set to 'Un-Set F.O.C.'. The layout is identical to the previous screenshot, including the percentage buttons, item category buttons, numeric keypad, and function keys at the bottom.
