Highlights of Changes in 5.0.28.149

ID: 7846 Change table screen can filter by table no and section.

User now can filter table number during change table for easier to search instead of scrolling down if the user had a lot of section and table.

ID: 7847 Support “Enter” key from keyboard at payment screen to proceed with payment.

Due to limitation some terminal had, for instant that terminal is not touch screen and they don't provide mouse but just keyboard, user can't proceed to make payment. Now user can made payment with “Enter” key if customer paid by cash.
