Highlights of Changes in 5.0.28.153

ID: 8094 Able to customize table font size.

Due to some of the screen are small, especially those all in one pos system, we have added this new feature to enable user to customize their font size so it will make it easier to see the table no.

To set, go to More Function > Settings > Table Design > Table Status Maintenance.

User table font now are bigger and easier to see.

ID: 8287 Support expand package details in pos option.

Second display will automatically expand its details for customer to know what item are in the package.

User can toggle it on and off the display incase if all of the item they are selling are in packages and they do not wish to display it at second display. To do so, go to backend Point of Sales > Maintenance > Pos Option Maintenance. Then untick the option as shown below if you wish not to expand the package details.
