*Last Modified 20<sup>th</sup> April 2021*

## Highlights of Changes in 5.0.28.160

ID: 9288 Support scripting at Find Transaction screen.

In this version, we have include scripting module at find transaction screen which provide more flexibility for minor customisation.

To do so, navigate to **More Function > Settings > Configuration Setting > Miscellaneous > Scripting**

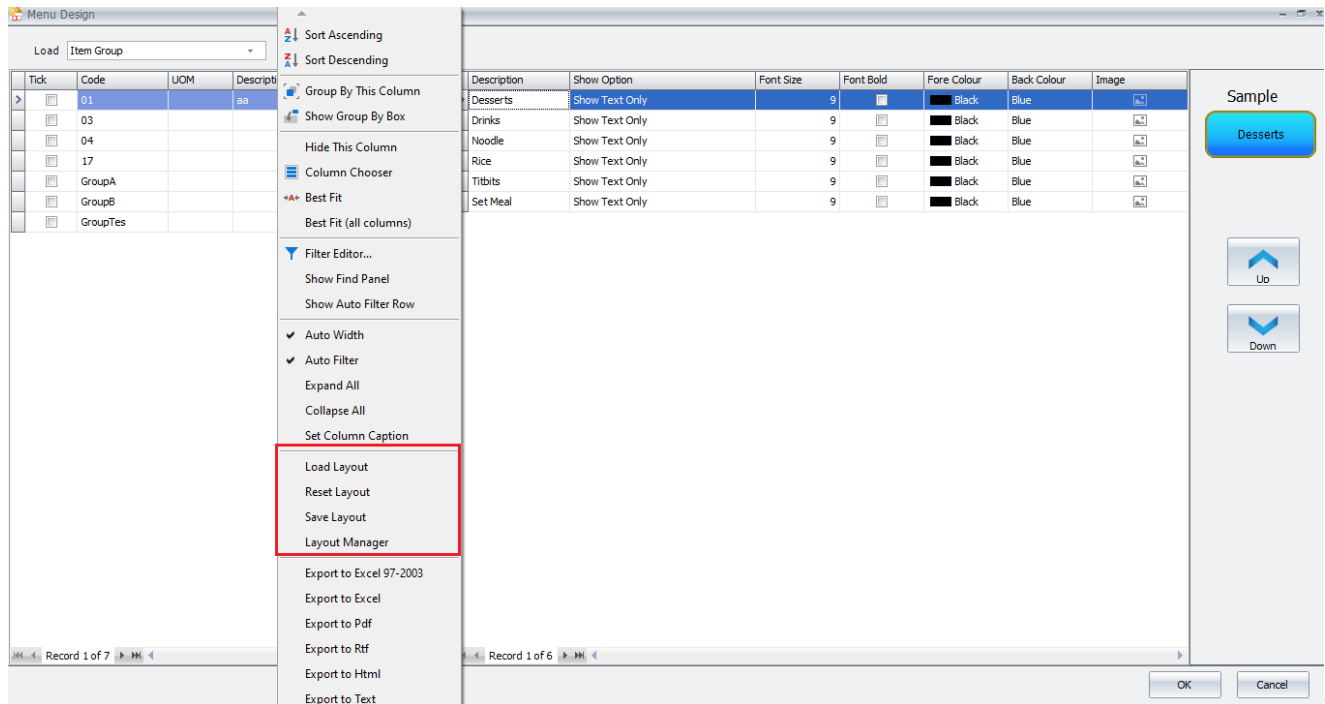

The screenshot shows the 'Script Maintenance' window. At the top, there is a yellow header with the text 'Script Maintenance' and a help icon. Below the header is a tab labeled 'Edit Script'. The main area is a table with two columns: 'Script' and 'Has Script'. The 'Script' column contains a list of application screens and reports, including 'Application Startup', 'POS Retail', 'MultiPayment Screen', 'POS F&B', 'POS F&B Screen', 'F&B MultiPayment Screen', 'POS Sales Report', 'Cash Receipt Report', 'Branch Stock Balance Report', 'Staff Attendance Report', 'Promotion Listing', 'Credit Card Payment Screen', 'Debit Card Payment Screen', 'Voucher Payment Screen', 'Close Counter Screen', 'Find Item Screen', 'Find Transaction Screen', 'Find Promoter Screen', 'Delivery Screen', 'Find Member Screen', 'POS Member Edit Form', 'Configuration Settings Screen', 'Customer Display Screen', 'Transaction Viewer Command Form', 'Transaction Viewer Edit Form', 'Serial Number Screen', 'Remote HQ', 'Promotion', and 'More Functions Screen'. The 'Find Transaction Screen' row is highlighted in blue. The 'Has Script' column shows 'Yes' for 'Staff Attendance Report' and is empty for all other entries.

## ID: 9292 Enhance Fast Menu and Modifier Menu.

-Support customized grid layout

-Add splitter control

### -Standardized grid control size

The screenshot shows the 'Menu Design' application window. On the left, there is a table with columns: Tick, Code, UOM, and Description. Below this table is a menu configuration area with various options. A context menu is open over the 'Filter Editor...' option, with 'Auto Width' and 'Auto Filter' checked and highlighted by a red rectangular box. Other options in the menu include 'Expand All', 'Collapse All', 'Set Column Caption', 'Load Layout', 'Reset Layout', 'Save Layout', 'Layout Manager', and several 'Export to...' options. On the right side of the application, there is a 'Sample' panel with a 'Desserts' button and 'Up'/'Down' navigation arrows.

### -Add item group and item type at sub menu item

The screenshot shows the 'Menu Design' application window with a different configuration. The main table has columns: Tick, Code, UOM, Description, Item Group, and Item Type. The 'Item Group' and 'Item Type' columns are highlighted with a red rectangular box. The table contains various items, including 'Ice Cream', 'Ice Kacang', 'Latte G', 'Item A', 'Cheese Drinks', 'Cheese', 'Pearl Drink', 'Pearl', and 'ALMOND POWDER'. The 'Item Group' column contains values like 'GroupA', 'GroupB', and 'GroupTes'. The 'Item Type' column contains values like '1' and 'typez'. On the right side, there is a 'Sample' panel with an 'Ice Cream' button and 'Up'/'Down' navigation arrows.
