2.0 Introduction

Item Description 2 is used to **show Item's second description** (Description 2) as maintained at Item Maintenance for each document entry.

2.1 System Requirement

- AutoCount Accounting 2.0 Basic Edition and above
- AutoCount Accounting 2.0 Revision 121 and above (Recommended)

2.2 Installation

1. Launch AutoCount Accounting 2.0 and login into the account book that wish to install this plug-in.
2. From the top Menu, go to **Tools → Plug-in Manager**.
3. Plug-in Manager screen will appear, click on the "**Install"** button located on the right side. System will prompt to select a file. Browse for the related **.app file**.
4. A new window will prompt with some basic information of this plug-in. Click on the **"Install"** button again to proceed.
5. A confirmation message will prompt after that. Click **"Yes"** to confirm the installation.
6. A success message will appear after the plug-in is installed correctly.
