

Column Maintenance

Navigation: New Help > Item Matrix >

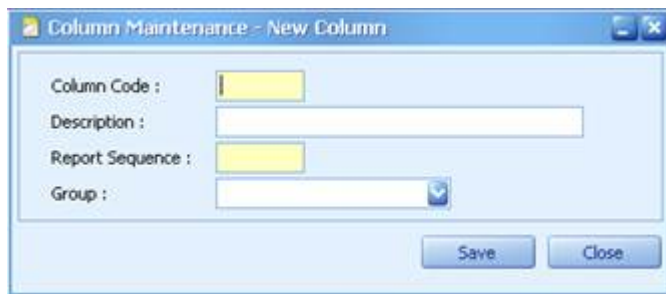

Column Maintenance

This Matrix module allows multiple units of SKUs for a particular item code, it can create different **Column Code** or Row Code for each item code, for example one design of T-Shirt, with 4 different colours and each colours has 6 sizes, hence this matrix module is a necessity method for efficiency work

Click **Item Matrix Management -> Column Maintenance**

Click  Button to create a new column

Column Code: To key in your own column code (It can be colour, size, article number and etc) **Description:** You may use this to describe your column code or just type as per column code **Report Sequence:** Select the report to be displayed in numbering sequence

Group: For 1st time, please key in the group that you wish to categorised those column code together (For example column code: 35,36,37,38 all under Group: XXX T-Shirt), user can define any own group so that it's easier to do filter easily

Click  button to edit column maintenance (Only allowed editing description, report sequence and group)

Click  button to view column maintenance by column code

Click  button to delete column code Click  button to refresh the screen

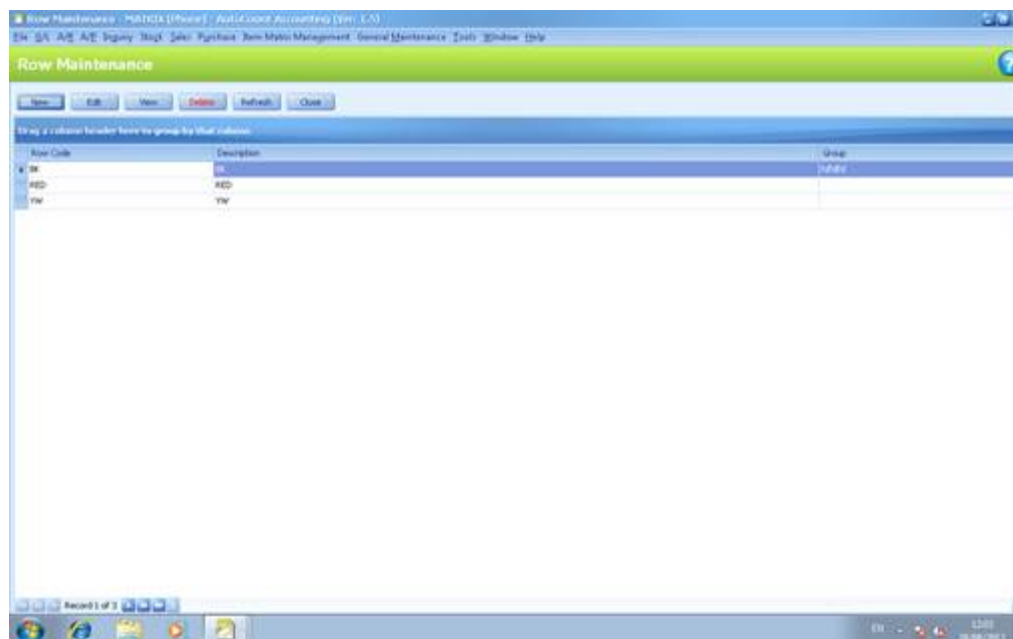

Row Maintenance

Navigation: New Help > Item Matrix >

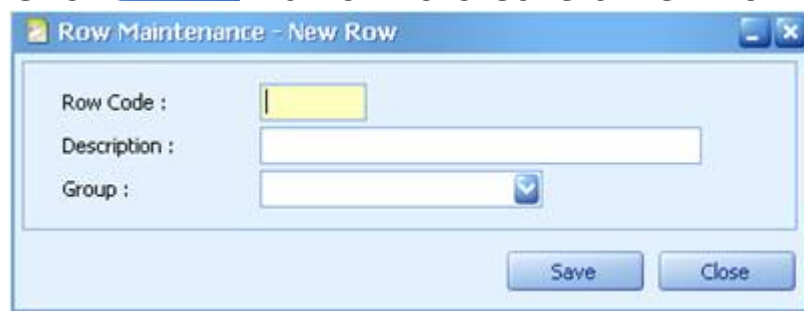

Row Maintenance

This Matrix module allows multiple units of SKUs for a particular item code, it can create different Column Code or **Row Code** for each item code, for example one design of T-Shirt, with 4 different colours and each colours has 6 sizes, hence this matrix module is a necessity method for efficiency work

Click **Item Matrix Management -> Row Maintenance**

Click  Button to create a new row

The dialog box titled "Row Maintenance - New Row" contains three input fields: "Row Code" (a yellow text box), "Description" (a white text box), and "Group" (a white dropdown menu with a blue arrow). At the bottom right, there are two buttons: "Save" and "Close".

Row Code: To key in your own row code (It can be colour, size, article number and etc) **Description:** You may use this to describe your row code or just type as per row code

Group: For 1st time, please key in the group that you wish to categorised those row code together (For example row code: BK, RED, YW, all under Group: XXX T-Shirt), user can define any own group so that it's easier to do filter easily

Click  button to edit row maintenance (Only allowed editing description and group)

Click  button to view row maintenance by row code

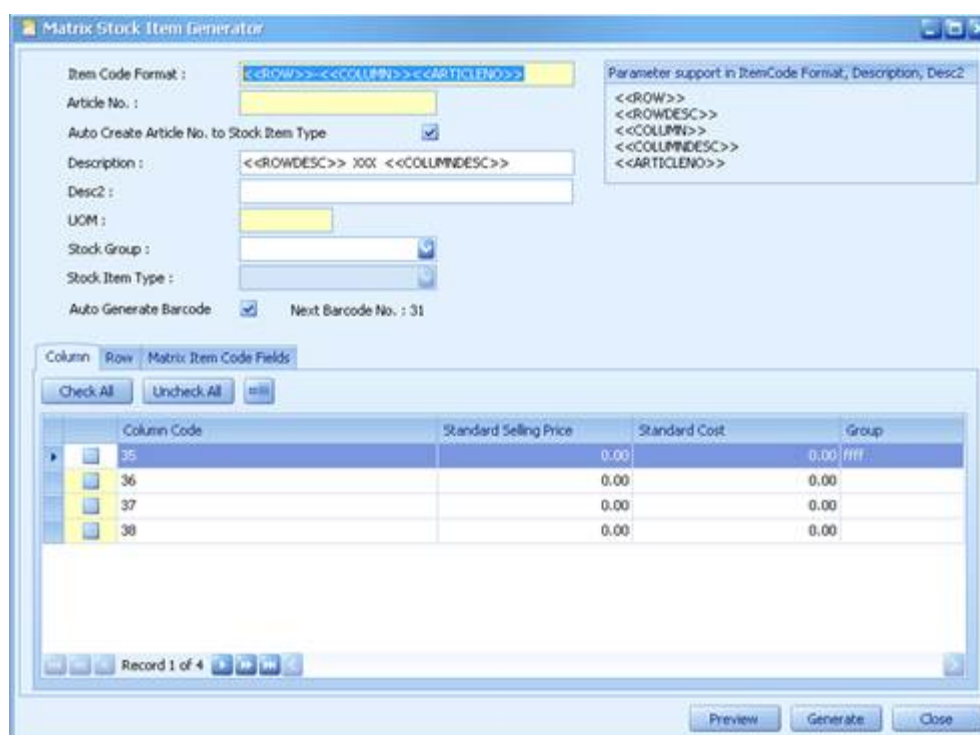

Click  button to delete row code Click  button to refresh the screen

Matrix Stock Item Generator
