## Highlights of Changes in 5.0.23.136

ID: 6078 Enhance Z Report in order to show voucher forfeit amount

We had added Forfeited Payment into our X and Z report in order to shows the forfeited voucher payment amount. So that it could make the Payment Summary figure tally with Sales Summary figure.

**\*\*Note:** Forfeited voucher amount occurs when the voucher value is larger than the bill's total amount. E.g.:-

|                          |         |
|--------------------------|---------|
| <b>Bill Total</b>        | RM35.00 |
| <b>Voucher Value</b>     | RM50.00 |
| <b>Forfeited Payment</b> | RM15.00 |

**Payment Summary**

|         | <u>Amount</u> | <u>Count</u> |
|---------|---------------|--------------|
| Cash    | 110.60        | 2            |
| Voucher | 50.00         | 1            |

Credit Card

Debit Card

Custom Payment

EWallet

|              |        |
|--------------|--------|
| <b>Total</b> | 160.60 |
|--------------|--------|

**Sales Summary**

|              | <u>Amount</u> | <u>Count</u> |
|--------------|---------------|--------------|
| Sales        | 43.00         | 3            |
| Credit Sales | 0.00          | 0            |
| Void         | -0.00         | 0            |
| Refund       | -0.00         | 0            |
| Trade In     | -0.00         | 0            |

|                          |              |          |
|--------------------------|--------------|----------|
| <b>Forfeited Payment</b> | <b>15.00</b> | <b>1</b> |
|--------------------------|--------------|----------|

|                |      |
|----------------|------|
| Service Charge | 2.58 |
|----------------|------|

|     |      |
|-----|------|
| Tax | 0.00 |
|-----|------|

|            |      |
|------------|------|
| Round Adj. | 0.02 |
|------------|------|

|              |              |
|--------------|--------------|
| <b>Total</b> | <b>60.60</b> |
|--------------|--------------|

|              |        |
|--------------|--------|
| Initial Cash | 100.00 |
|--------------|--------|

|         |      |
|---------|------|
| Cash In | 0.00 |
|---------|------|

|          |      |
|----------|------|
| Cash Out | 0.00 |
|----------|------|

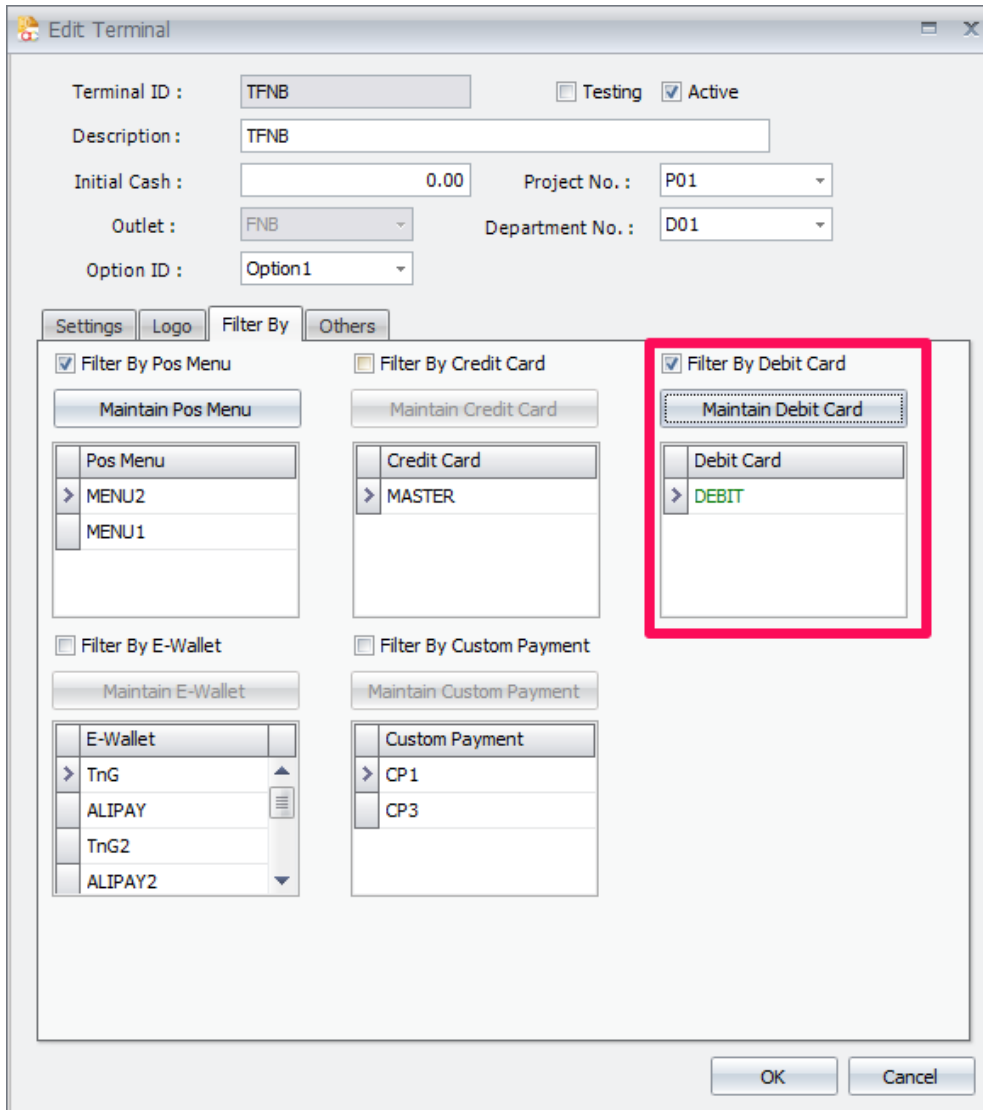

|            |      |
|------------|------|
| AR Payment | 0.00 |
|------------|------|

|                    |               |
|--------------------|---------------|
| <b>Final Total</b> | <b>160.60</b> |
|--------------------|---------------|

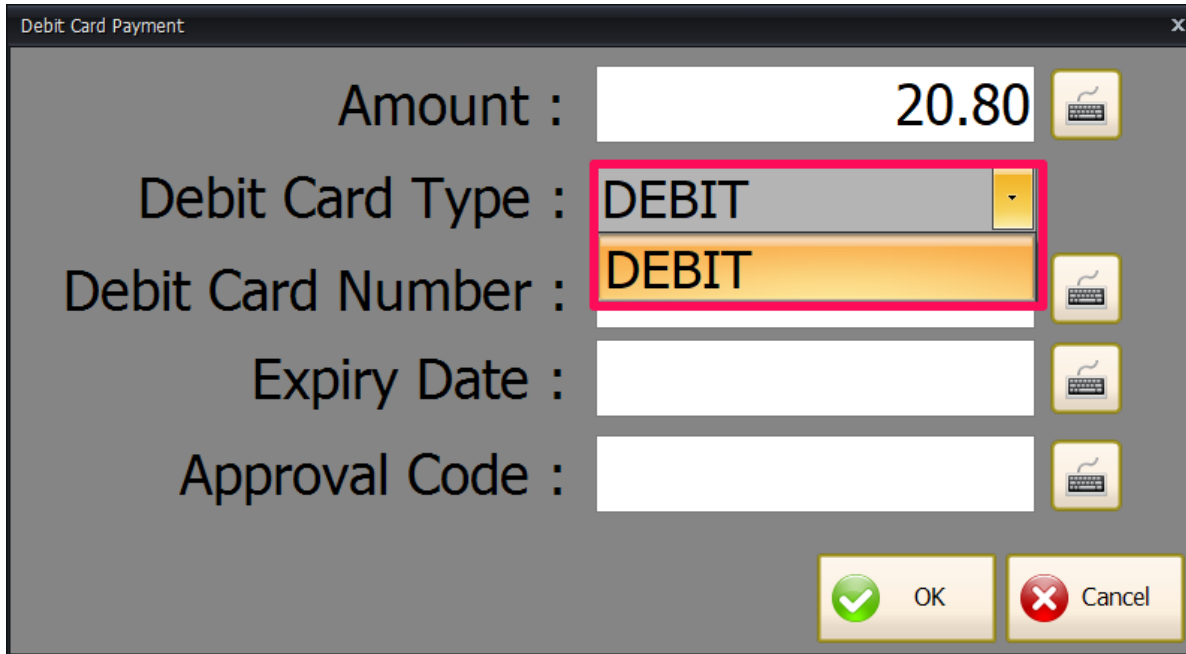

### ID: 6257 Support Filter by Debit Card in Terminal Maintenance

“Filter By” function in Terminal Maintenance is now support filter by Debit Card as well. In backend *Point of Sale > Maintenance > Terminal Maintenance > Filter By tab > Filter By Debit Card.*

Enable the option in POS Terminal Maintenance and then click on *Maintain Custom Payment* to select which Custom Payment you want. After enable and maintained, you will need to sync it to front-end.

In front-end, when you make payment by Debit Card, you will only see those Debit Card payments that you maintained at back-end.

Debit Card Payment

Amount : 20.80

Debit Card Type : DEBIT

Debit Card Number : DEBIT

Expiry Date :

Approval Code :

OK Cancel

### ID: Added Reorder Advice Report at front-end Remote HQ

Reorder Advise Report are now available in Remote HQ function. You can access this function at front-end *More Function > Inquiry > Remote HQ.*

**Note:** Remote HQ module have to be purchased in order to use this function.
